Education

ABES Engineering College - B.Tech, Computer Science 2024–2028

Lucknow Public School, Gomti Nagar, Lucknow, UP - Intermediate (PCM) 2022–2023 : Percentage: 85%

Lucknow Public School, Gomti Nagar, Lucknow, UP - High School 2020–2021 : Percentage: 93%

Projects

- **Personal Portfolio Website**
HTML, CSS, JavaScript | Responsive UI with Dark Mode
Developed a modern portfolio website showcasing projects and skills.
Integrated dark mode toggle and responsive layout for mobile devices.
- **Internship Listings Web Page** | HTML, CSS, JavaScript
Built an internship listing page with scrollable cards and interactive UI.
Used Flexbox and CSS animations for layout and interactivity.
- **Dynamic Full-Stack Boutique App** | MERN Stack (MongoDB, Express, Node.js)
Created a full-stack e-commerce clothing platform with JWT authentication.
Enabled product browsing, cart, checkout, and admin order management.

Technical Skills

Programming Languages: Python, C, C++, JavaScript, MySQL

Familiar with: HTML5, CSS3, Node.js, Express.js

Developer Tools: Git

Skills: MongoDB, REST APIs, JWT Authentication, Data Structures & Algorithm

Interests: Competitive Programming, Algorithm Design and Analysis, Mathematics, Tech Community Involvement

Achievements

- **CodeChef** – Achieved a 1 star (1100+) rating on CodeChef, reflecting good competitive programming skills – Solved 150+ algorithmic problems across various difficulty levels.
- **Deloitte – Technology Job Simulation | Forage (Virtual Experience), July 2025 to July 2025** – Completed simulation with coding tasks and a dashboard proposal project.
- **Web Development Intern | VaultofCodes.in (Remote) Internship, July 2025 to July 2025** – Completed a 1-month internship focused on front-end web development. Gained hands-on experience in HTML, CSS, JavaScript, and responsive UI design. Built a certificate verifier web page with real data simulation and chart visualizations. Demonstrated commitment, teamwork and applied problem solving.

Positions of Responsibility – CodeChef ABESEC | Content Team (Sept 2025 – Present)

- CodeChef ABESEC is a coding club which is actively organizing coding events and sessions within college.
- Organized various coding events having more than 400+ students as audience.
- Engaged in organizing coding challenges, workshops and sessions.
